

The nearly block-long facility at 524 West 57th Street in the Hell's Kitchen section of Manhattan serves as the headquarters of CBS News and the CBSN live streaming news channel, and is the main broadcast facility for CBS News, CBS Sports, New York City flagship O&O station WCBS-TV and CBS-owned independent station WLNY. In 2001, BET previously used studios for 106 & Park and other in-studio shows (both BET and CBS were part of Viacom until their 2006 separation by the Viacom/CBS split, but re-merged in 2019). CBS Television Distribution's nationally syndicated newsmagazine Inside Edition is also taped at the Broadcast Center.
